Sponsoren

8:00 – 8:25	Shoulder Anatomy and Function
8:25 – 8:50	Shoulder Arthroscopy
8:50 – 9:15	Diagnosis of Shoulder Problems
9:15 – 9:40	Shoulder OCD
9:40 – 9:55	Problems with the Biceps Tendon
9:55 – 10:15	Break
10:15 – 12:00	Shoulder Arthroscopy Laboratory <ul style="list-style-type: none">- Explore and instrument joint- Biceps tendon release
12:00 – 1:00	Lunch
1:00 – 1:40	Shoulder Instability (MGHL, LGHL and subscapularis)
1:40 – 1:55	Problems with the Glenoid of the Scapula
1:55 – 2:10	Shoulder Arthrodesis
2:10 – 2:25	Conservative Treatments of shoulder injury <ul style="list-style-type: none">- Rehabilitation exercises- Shockwave therapy- Biologic modulators (stem cells, ACP, PRP)
2:25 – 2:40	Surgical approach to the shoulder
2:40 – 3:00	Break
3:00 – 5:00	Shoulder Instability Laboratory <ul style="list-style-type: none">- Reconstruction of MGHL and LGHL- Arthrex suture anchors (SwiveLock, Corkscrew, Fastak)
5:00 – 5:30	Summary of the day

8:00 – 8:20	Stifle Anatomy and Function
8:20 – 9:00	Stifle Arthroscopy
9:00 – 9:40	Complete and Partial CrCL rupture
9:40 – 10:00	Meniscal injury

10:00 – 10:15 **Break**

10:15 – 12:15	Stifle Arthroscopy Laboratory <ul style="list-style-type: none">- Explore and instrument joint- Remove CrCL- Probe menisci- Meniscal release
---------------	--

12:15 – 1:15 **Lunch**

1:15 – 1:30	MCL injury
1:30 – 1:45	OCD
1:45 – 2:30	Extracapsular repair of the CrCL
2:30 – 2:45	TPLO and TTA

2:45 – 3:00 **Break**

3:00 – 5:00	Stifle Laboratory <ul style="list-style-type: none">- Surgical approach and joint exploration- Partial meniscectomy and meniscal release- Extracapsular CrCL Repair (Arthrex SwiveLock and FiberTape)- MCL repair (Arthrex Corkscrew and Fiberwire)- Osteochondral allograft (OATS for OCD): if time permits
-------------	---

5:00 – 5:30	Summary of the day
