Service you can rely on...
We understand that patients rely on you every day – and that you rely on your equipment. You have purchased the most innovative world-class imaging devices available, and you expect them to be ready at all times. As your strategic partner, you can rely on Arthrex to provide quality products and service to help surgeons treat their patients better.

Warranty Policy
For all warranty information, including disclaimers, exclusions, terms, conditions, and related provisions, refer to the Arthrex U.S. Product Warranty available at www.arthrex.com/corporate/arthrex-us-product-warranty.
About Third-Party Repairs
According to the FDA, “Stakeholders have expressed concerns that some third-party entities who refurbish, recondition, rebuild, remarket, remanufacture, service, and repair medical devices may use unqualified personnel to perform service, maintenance, refurbishment, and device alterations on their equipment and that the work performed may not be adequately documented. Possible public health issues arising from these activities include ineffective recalls, disabled device safety features, and improper or unexpected device operation.”*

Impact of Using Third-Party Service Providers**†‡
- Third-party providers do not have the training or expertise needed to service Arthrex devices.
  - They are not aware of the latest software upgrades.
  - They do not have access to Arthrex-certified parts, and they may choose to find third-party reverse-engineered parts, or use scavenged parts.
  - They do not have the same level of expertise or training on Arthrex devices.

* fda.gov - The Food and Drug Administration Reauthorization Act of 2017 (FDARA).
† Arthrex products modified or altered in any manner by an unauthorized third-party service provider are considered adulterated pursuant to FDA regulations and can no longer be serviced or repaired by Arthrex, Inc.
‡ Utilizing an unauthorized third-party service provider to service or repair Arthrex products voids all warranties and/or any purchased service programs.
Identifying Third-Party Repairs of Optical Components

Original manufacturer
Eyepiece attached gap-free

Third-party repair
Gap formation as a result of nonoriginal component increases hygienic risks

Original manufacturer
Objective lens within specifications

Third-party repair
Copied objective lens

Original manufacturer
Precisely applied weld seams

Third-party repair
Improperly applied weld seam and/or use of adhesive resulting in poor or nonexisting sealing
